INDICA DUBS *UK* & CONSCIOUS SOUNDS *UK*

Elements

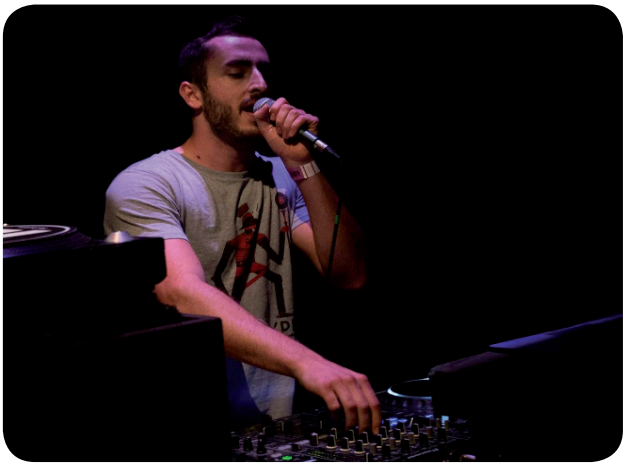

Sukh Gill started listening to vinyls and attending Dub events at a young age and described it as a life changing experience. “Seeing the vinyl spinning, and the reactions of the crowd going crazy – especially when the bass dropped on the sound system – it changed everything, I immediately knew this was the path for me.” Inspired by the energy, the spiritual upliftment and vibe within the Dub community, he was determined to create the his own contribution and started producing his own tunes by the age of 18, with the schooling of his uncle. With a clear goal of reaching 100 independent vinyl releases on his own label, **Indica Dubs** was founded and released it’s first vinyl in 2010 at the age of 20 and was quickly played by various Sound Systems such as Jah Shaka, King Shiloh, Channel One and Iration Steppas. The next release followed a few months later and Indica Dubs continued to be at the forefront releasing more music each year. Indica Dubs also supplies ‘one-away’ Dubplates to many Sound Systems across the world.

RDH *FR*

Stepwise

Passionate about Reggae music for several years and especially the sound-system movement, Clement and Simon created the **RDH Hi-Fi** project to participate in the dissemination of this music and to promote the intrinsic values such as Unity and Sharing . Musicians from their early age, RDH Hi-Fi is also working to offer original compositions. Inspired by the legendary producers and sounds like King Earthquake, Zion Gate Hi-Fi or Gussie P (to name a few), but also fans of the best groups of Jamaican music as Burning Spear and Culture, their selection allows the musical encounter between different styles that have marked the history of Reggae and Dub to the latest evolutions of Stepper / Electro Dub.
Finally, to ensure perfect control of all the necessary skills needed in the proper operating of their system, Clem and Simon build their own equipment (dubsiren, boxes, preamp, amps ...) following in the footsteps of the movement pionneers. RDH Hi-Fi fits completely in the sustainability of the sound-system movement endeavoring to transmit a conscious and positive message through the physical and spiritual vibrations in the dances. Big up!
